 - Suncoast Overflow – Rebuilt Stack Overflow using C#, .Net, and React with hooks
-

WORK EXPERIENCE

United States Coast Guard

Environmental Analyst

Jan. 2016 – Aug. 2019

Washington, DC

- Analyst for the U.S. Coast Guard Office of Environmental Standards tracking international shipping vessels worldwide to provide evaluations and recommendations for compliance and regulation.
- Experience operating on Federal and international levels, to correspond, coordinate, and enforce regulations with maritime shipping companies and the International Maritime Organization.
- Advisor to senior leadership on the technical analysis of international maritime regulations of 33CFR151 including over 15,000 shipping vessels worldwide with new, highly controversial, and precedent-setting issues.
- Database analyst, translating organizational guidance into compliance requirements for international maritime shipping. Access developer for departmental needs and services.

United States Coast Guard

Deepwater Horizon Planning Section Chief

Nov. 2010 – Aug. 2015

New Orleans, LA

- Became the youngest department head in charge of all operations and planning of personnel across the entire Gulf Coast for the largest oil spill in U.S. history.
 - Directed 8 teams of 25 personnel each, across 4 states along the Gulf Coast, supervising USCG personnel, BP representatives, and contract workers in response to over 10,000 of cases across 9,000 of miles of shoreline.
 - Drafted and consulted legal and environmental documents necessary for the progression of cleanup response.
 - Dictated and spoke for numerous briefings about ongoing response efforts to numerous stakeholders including: Federal, State, and Local governments, environmental organizations, universities, and media interests.
-
