LinkedIn: [dawn-ribeiro](#)

After nearly two decades as a massage therapist, I was inspired by my husband's career change to explore opportunities as a developer. My history with tailoring customer experience and my history of entrepreneurship have given me the interpersonal skills I need to excel in my new career. Additionally, I have been inspired by my program, my husband, and by the local tech community to explore opportunities as a full-stack developer.

SKILLS

-Customer Service	-JavaScript	-C#	-Slack
-HTML5	-React	-Net	-Trello
-CSS3	-SQL	-Git	

EXPERIENCE

The Academy at Suncoast Developers Guild, St. Pete, FL - Student

March 2019 - July 2019

12-week intensive program around how to develop full-stack web applications. Starting with HTML, CSS, and JavaScript moving through to SQL and C#, the program culminated in the creation of our own full-stack capstone project.

Color Picker: <https://color-hooks-dawng-ribeiro.netlify.com/>

The color picker is a random color selector for Hue, Saturation and Lightness. This project was built using React.js Hooks
