## Professional Summary

A broad background in web development, research and analysis, and enterprise strategy across different sectors and industries. Brings value in the technical, vision, and personal facets of organizations in the public- and private-sectors; local, regional, or global. A quick learner, self-starter, and team leader, comfortable working across business lines, functional areas, and with stakeholders internal or external.

## Skills

Full Stack Web Development

C#/.NET

SQL

Javascript/React

HTML/CSS

Legal Research

Quantitative and Qualitative Research

Microsoft Office Suite

Enterprise Architecture

Report Writing and Analysis

## Projects

**Armchair GM:** Web-based baseball general manager simulation, using Javascript/React and C#/.NET

**Minesweeper:** Web-based reproduction of classic game using HTML/CSS and Javascript

**Treasury Financial Manual:** Requirements gathering and project oversight for Adobe CQ-based regulations publishing application

**Civil Conflict Outcomes and Recurrence:** 90+ page undergraduate thesis on comparative views of conflict theory using historical data and case studies

## Work Experience

### CONFLICTS ANALYST

White & Case, LLP

2017 - 2018

- Analyzed incoming business for conflicts of interest firm-wide
- Coordinated compliance cases across business lines and global practice locations
- Provided "know-your-customer" research on diverse companies, institutions, and executives

### RISK ANALYST II

BB&T Co.

2014 - 2016

- Provided research and analysis on prospective large dollar commercial and personal loan borrowers
- Queried and synthesized data from a variety of legal and public records databases
- Performed quality control analyses on previous research and business processes

### FINANCIAL PROGRAM SPECIALIST

US Treasury Department

2009 - 2013

- Worked across business units to develop and improve business architecture and operational processes
- Developed a Bureau-wide data schema, and specifications for a web-based regulations management system
- Co-led a workgroup on selection and oversight of financial agents
- Authored and edited data-analysis, research, position documents, and dashboards used by senior management
- Combined Federal Campaign keyworker, 2011
- Employee of the Month, March 2010

## Education

### SUNCOAST DEVELOPERS GUILD

2019

- Built proficiency in HTML, CSS, Javascript/React, SQL, and C#/.NET in an immersive, full-time program, full stack web development program
- Created front- and back-ends of webpages using bleeding-edge coding tools
- Created a capstone project simulating major-league baseball roster building

### NEW COLLEGE OF FLORIDA

2004 - 2008

BA - Political Science/International & Area Studies

- New College is the public honors college of Florida, using a non-traditional academic system focused on self-motivated learning and research
- Completed coursework including international and domestic politics, history, micro- and macro-economics, philosophy, and sociology
- Elected member of the Student Academic Council and International Studies Committee, 2007-2008
