Problem Solving and Advocacy Through Software

Education

Suncoast Developers Guild   { January 2019 -- April 2019 / St. Pete, FL }
Graduate of a three month immersive, high intensity and extensive developer program. The program included daily interactive classroom lectures, challenging daily assignments, along with labs working directly with industry leading instructors. Classwork in object-oriented programming, desigining user facing interfaces, developing, testing and debugging code.

Launch Code LC101   { October 2017 -- June 2018 / Tampa, FL }
Graduate of a 20 week part time evening coding course. Weekly classroom lectures and assignments provided a foundation in programming. Languages included HTML, CSS, MySQL and Python.

Saint Leo University   { October 2017 -- June 2018 / Saint Leo, FL }
B.A. Psychology

Work Experience

Four years in Media Tech and six years in Child Welfare has allowed me to develop my skills including leadership, empathy, active listening, decision making, advocacy, communication, organization, collaboration, mentorship, and problem-solving as a passionate and dedicated team member.
