ANASTASIA MALISSOVAS

Full Stack Web Developer

GET TO KNOW ME

I am a junior full stack developer born and raised in Florida who has always been attracted to the aesthetics of technology. I have high hopes and aspirations to create amazing, fully functional websites backed by databases and server-side applications. I am also always striving to improve my problem solving abilities and I thrive in a team environment.

SKILLS AND LANGUAGES

Ruby
JavaScript
React
HTML & CSS
Postgres
SQL
Yarn
Web Design
CRUD

PROJECTS

Sweet Tweets- This is a React rails app I am currently working on as my capstone project involving Girl Scout troops and leaders. It uses authentication and google maps API (for ui) that integrates with twitter via their API, with a beautifully responsive front end that incorporates flat design illustrations.

Sailor Moonsweeper- An app that communicated with a back-end API server to create the UI for a Minesweeper clone. Also demonstrated how to use REST APIs and React lifecycle methods.

Movie-times- This app demonstrates the use of collaboration through Github. We worked remotely throughout a weekend to build an app implementing react and react router as well as some css styling.

EDUCATION

Suncoast Developers Guild- (January-April 2019)
-Academic program focusing on client-side (front-end) technology: HTML, CSS and Javascript

Included is a focus on server-side (back-end) technology such as Ruby on Rails and .NET

St. Petersburg College- (2009-2013)
-AA with a major in Studio Arts

-Minor in American Sign Language(ASL) and Intro to the Deaf community.

PREVIOUS WORK

Michele Renee The Studio- (2013-2018)
-Specialized in airbrush makeup application and hair styles and adapted to stressful, time sensitive events.

-Based in Tampa, FL, with a client base for weddings, boudoir, corporate, film, television, social events, photo shoots, and more.

Winsor Event Studio- (2012-2014)
-Wedding Planner and day-of coordinator ensuring a polished and complete event.

-Based in the greater Tampa Bay area in charge of keeping track of all the vendors, contacts, timelines, costs, and details that make up a wedding.
